

Optek OVS5MxBCR4 Series

Fast Facts

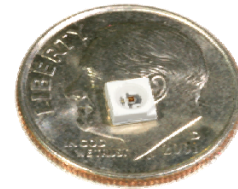

The OVS5M series mini-half watt LED is an energy efficient packaged LED that offers high luminance and a long operating lifespan. This device offers a 120° viewing angle and an ultra-low profile (1.2mm) making it highly suitable for conventional lighting and specialized applications. The OVS5M series has all of the characteristics of Optek's popular OVS5x series (6X6mm) in a package nearly half the size.

Market Segments

- ✓ Lighting
- ✓ Automotive

Applications
